Projects Runway 15-33 & Parallel Taxiway Extension Pre-Grading, Extension of Opportunity Road, and Wildlife Fencing

The recent dry weather has assisted in the dirt removal and excavation. As of last forecast and recalculations it appears, they are significantly behind schedule. We will be meeting to discuss time frames and plans to get this project back on planned and contractual schedule.

New Businesses

The new Dollar Tree and Gerbes Gas Station are under construction with an estimated completion within 60 days. Jones Bar B Que is hopeful to be open by Labor Day Weekend.

City Hall

We are instilling health and safety precautions amongst city employees with the recent uptick in Covid cases within the county. We are ensuring social distancing in all possible situations and increased sanitization practices. We did receive our first installment of the Covid 19 CARES reimbursements from the county. We will be submitting other expenses in the near future.

Other Projects

- Blair Water Tower- Contract awarded and work to be completed within 90 days. The project is complete
- Tonka Street Manholes- Bids opened and contract awarded and project complete
- Bids opened and contract awarded for Court Circle Project and the project should be complete by 09-01-2020.
- The Street Overlay projects have been completed under budget.
- Water mapping is in progress and on target to be completed this fiscal year.
- RFQs have been submitted for the demolition of two city owned properties (Night Hawk) on the square. We met with three companies interested in the demolition of the city owned buildings and now have requested cost estimates from each company. Cost estimates have been received. Other developments have arisen regarding this project to be discussed with the Board of Alderman this evening.

Conclusion

We have completed the initial drafting of the budget and will be doing its introduction and first reading at tonight's meeting. There were many hard hours of work from many employees and they should be commended on their hard work and dedication.

CITY OF CAMDENTON, MISSOURI EMPLOYEE PAY PLAN

Effective July 1, 2009

Approved by Resolution No 08-25

Amended by Resolution No 12-08 on May 15, 2012

Amended by Resolution No. 17- on October 17, 2017

GOAL

To draw present salary information together to develop a workable document/tool when considering new hires as well as when considering pay increases for Camdenton employees.

DESCRIPTION OF PROCESS

For hourly employees a Grade/Step Pay Scale System was developed by drawing together current beginning wages for all hourly employees and the current pay of all hourly employees.

Job "Grades" were established by grouping current like beginning wages after rounding them forward.

The "Steps" were established in \$.25 cent increments and hourly employees were placed on a Step using their current wage. Steps were not necessarily equal to years of service but in some cases were similar.

All beginning wages and current hourly employees' wages were rounded forward to the nearest \$.25 increment. The objective of the salary schedule was then to get the wage of all hourly employees equal to a \$.25 cent Step. To accomplish this a combination of hourly wage increases and incentive pay, when added together would equal a \$.25 cent step or \$520 annual pay based on 2080 hours (or normally scheduled hour per year for permanent part-time employees), would be implemented with fiscal year 2009-2010.

Example 1:

<u>Presently Hourly Wage</u>	<u>Rounded to Step 6</u>	<u>Difference per Hour</u>
\$14.58	\$14.75	\$.17 cent

Effective July 1, 2009

\$.17 per hour wage increase

\$.08 per hour "incentive" pay

$$.25 \times 2080 = \520

Example 2:

<u>Presently Hourly Wage</u>	<u>Rounded to Step 6</u>	<u>Difference per Hour</u>
\$14.71	\$14.75	\$.04 cent

Effective July 1, 2009
\$.04 per hour wage increase
\$.21 per hour “incentive” pay
\$.25 x 2080 = \$520

For further clarification: “incentive” pay will be the means for equalization when adjusting to the new System and the “incentive” pay amounts will not further add to the employee’s base hourly wage. Using this method all hourly employees would then be on \$.25 cent increments on the rounded forward Steps. If additional funds above the \$.25 cent wage/incentive adjustment are available for FY09-10 the Board of Aldermen could approve additional pay increases.

Salaried employees are not included on the Grade/Step Pay Scale schedule but salary ranges were reviewed and revised. Because salaried employees are not on the Grade/Step Pay Scale the wage/incentive equalization adjustment will not be needed.

Incentive (equalization) pay will be eliminated by attrition.

PAY INCREASES

For Hourly Employees Using the Step/Grade Pay Scale System

It is anticipated that the System could be revised each year when the budget is established and the amount of funds available for wage increases is determined. This could be accomplished by moving down in a \$.25 cent Step or adjusting the current steps. When adjustments are made to Steps it will affect all Steps within the schedule. This System is not meant for employees reaching the bottom of the Steps scale to “bottom out”.

Example of methods to consider when calculating increases:

Less than \$.25 cents per hour available, money is added to each Step and employees remain on their current Step

\$.25 cent per hour pay increase available, employees advance by a Step

\$.25 cents per hour pay increase or more available,

- A Step is added to the bottom of the scale for each Grade; and/or
- Steps are given and remaining money added to each Step; and/or
- Possible quartile system utilized; and/or
- Longevity award given to employees below a certain number of Steps

Pay Increases for Salaried Employees

Salaried employees will receive pay increases “similar” to the pay increases for the hourly employees but salaried employees are not placed on a Grade/Step System.

PAY INCREASES EFFECTIVE

Annual pay increases for all employees will become effective in July~~October~~ of each year instead of on an employee’s anniversary date, as was previously the policy.

PLACING A NEW EMPLOYEE ON THE PAY SCHEDULE

Department Heads will have the flexibility in making “recommendations” to the Board of Aldermen for placing new hires on the salary schedule, not to exceed Step 6, but this is not mandated. Justification presented by the Department Head for placing a new hire on other than Step One might include education and/or years of experience that the candidate brings to the job for which they are being considered. The final decision on the candidate’s Step placement will be made by the Board of Aldermen. The placement of the new hire on the salary schedule will be reviewed at the six (6) month probationary evaluation.

PAY INCREASES FOR NEW HIRES

Hired During First Three (3) Quarters of Fiscal Year: Employee would receive the same pay increase as other employees in the next fiscal year.

Hired During the Fourth (4th) Quarter of a Fiscal Year and Placed on Step One: Employee would receive any money added to the current Step in the next fiscal year, but would not advance by Step until the subsequent fiscal years.

Hired and Placed Below Step One: Employee would receive the pay increase allowed for employees in the next fiscal year.

GRADE PROMOTION

In the event an employee applies for a different position within the City and the City wishes to offer such employment in the new position to the employee, a determination will be made as to the step on the salary scale in which they would begin in the proposed new position. This determination will be made prior to the new position being offered to the employee and communicated to the employee in order that the employee would have information as to whether they desire to accept the new position being offered at the step on the salary scale that is offered.

For Police Officers: With ten (10) years’ experience as an officer at another department with the recommendation from the Chief can be allowed to use that experience to move between Grade 1 and Grade 2 only within 1 ½ years versus the 3 year requirement.

EVALUATIONS

On successful completion of a six (6) month probationary evaluation the employee will be classified as permanent employee. If the employee’s six (6) month probationary evaluation confirms the employee’s declaration of previous education and/or years of experience brought to the position in excess of the requirement of their position, the Department Head may recommend additional steps on the job grade pay scale effective with the next fiscal year budget, with Board of Aldermen approval. The current job grade step placement plus additional steps may not exceed Step 6, but this is not mandated.

All employees will receive annual evaluations during the fourth (4th) quarter of each fiscal year.
