PRESS RELEASE

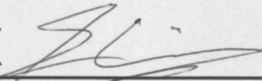

06/10/2021

The Sunrise Beach Police Department has been working with the Missouri Safety Center in efforts to institute a breath alcohol program. We have been awarded a breath alcohol instrument and simulator from the Safety Center at no cost to the city. This instrument will allow our officers to perform breath alcohol tests within city limits.

The AS-IV that has been awarded will allow our officers to conduct breath tests inside the department as well as the patrol cars. We would like to thank the Missouri Safety Center for working with us to bring this instrument to our department.

Officers have been trained in breath alcohol testing and in obtaining search warrants for blood should the suspect refuse breath tests. We take DWI's very seriously and will continue to do all that we can to put an end to intoxicated driving and crashes in Sunrise Beach.
